## Temperature
- Thermocouples: general purpose, hand-held, RTD, and industrial probes.
- In addition to our standard products, we can also custom design and build probes to your specifications.

## Environmental Testing
- Environmental test chambers including: temperature, humidity, thermal shock, & altitude chambers.

## Flow
- Flow meters: Turbine, Coriolis, magnetic, positive displacement, oval gear, & more.
- COX precision turbine flow meters for gases & liquids
- EXACT dual rotor turbines
- FLOW DYNAMICS NVLAP flow calibration services
- High precision flow meter calibration systems

## Wireless/Telemetry
- The smallest, lightest, most power efficient, wireless measurement systems for torque, acceleration and other sensing application.

## Displacement
- Point-lasers & 2D/3D line scanners (triangulation & time-of-flight technology)
- Confocal chromatic displacement measurement systems
- Hi-accuracy position, thickness, & surface measurements

## OEM/Custom Sensors & Contract Manufacturing
- Manufacture of force sensors & other strain-gage based sensors, specializing in custom OEM applications for aircraft applications including sensors for flight controls, braking, steering, and fuel systems.

## Environmental Test Chambers
- Thermocouples: general purpose, hand-held, RTD, and industrial probes.
- In addition to our standard products, we can also custom design and build probes to your specifications.
